ACCESSORY SOCKET

<CRF300LR/CRF300LRA>

ACCESSORY SOCKET

• The maximum power rating of connected accessories is following:

08E70-K1T-J50:	36W (12V, 3A)
08E70-KZZ-D21:	12W (12V, 1A)
08E70-KZZ-J20:	36W (12V, 3A)

- Use accessories with engine running to avoid discharging the battery.
- Do not use a cigarette lighter, as this can cause a malfunction.
- Cover the socket with the cap when the accessory socket is not used to prevent entry of foreign objects.
- Carefully secure any connected devices, as vibrations may cause them to shift unexpectedly.
- Do not use the accessory socket when the motorcycle is being washed.
- Check the accessory mounts frequently and retighten if necessary.
- Clean this accessory with a soft cloth soaked with a solution of mild detergent and water. Then wipe with a clean cloth soaked with water to clean dirt and detergent. Finally wipe dry with a soft, clean cloth.

CARRIER BRACKET

CARRIER BRACKET

• The weight of the cargo must not exceed the following maximum loading capacity:
Only use carrier bracket: 5.0 kg (11.0 lb)

- Check the accessory mounts frequently and retighten if necessary.
- Clean this accessory with a soft cloth soaked with solution of mild detergent and water. Then wipe with a clean cloth soaked with water to clean dirt and detergent. Finally wipe dry with a soft, clean cloth.

GRIP HEATER

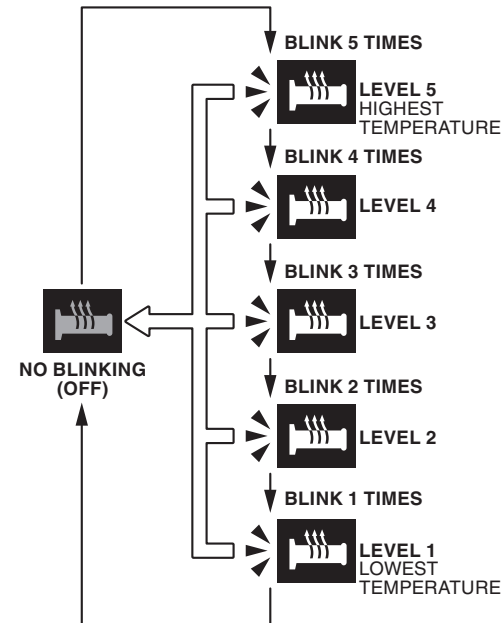

- This accessory is replaced with the grip heater combined with the throttle pipe. Therefore, the throttle operation has a different feeling after installation.
- Check the accessory mounts frequently.
- Clean this accessory with a soft cloth soaked with a solution of mild detergent and water. Then wipe with a clean cloth soaked with water to clean dirt and detergent. Finally wipe dry with a soft, clean cloth.
- Do not use the grip heater with the engine at idle for a long time. It may result in a low (or dead) battery.
- Do not leave the grip heater in the high position for a long time on a warm day.
- The heater level is not changed if the ignition switch is turned to the OFF position within 5 seconds of changing the heater level.
- The selected heater level is indicated the number of times by the icon blinks.
- The selected heater level is indicated for a few seconds when the heater switch is operated.

HEATER SWITCH/ICON

GRIP HEATER INDICATOR

- Indicates when the grip heater is operating.
- If the grip heater system has an error, the grip heater indicator will blink. If the blinking does not go off, see your Honda dealer as soon as possible.

HOW TO USE THE GRIP HEATER

1. Start the engine.
2. Press the heater switch. The grip heater is ON.
3. Select the heater level by pressing the heater switch.
4. To turn OFF the heater, press the heater switch until the icon or grip heater indicator disappears.
 - Also, to turn off, push and hold the heater switch.

← Press the heater switch.

← Push and hold the heater switch.

Each level blinking repeat 7 times.

SAFETY INFORMATION

The following sentences show the label meaning.
Some labels warn you of potential hazards that could cause serious injury.
Others provide important safety information.
Read this information carefully and don't remove the label.

If a label comes off or becomes hard to read, contact your Honda dealer for a replacement.

There is a specific symbol on each label. The meanings of each symbol and label are as follows.

Read the use and care information in installation instructions or genuine accessory user's guide carefully.
Read the **LOAD LIMITS AND GUIDELINES**, and **TYRES** sections in owner's manual.

WARNING (with ORANGE background)

You **CAN** be **KILLED** or **SERIOUSLY HURT** if you don't follow instructions.

CAUTION (with YELLOW background)

You **CAN** be **HURT** if you don't follow instructions.

Refer to this information for the meanings of the symbols shown on the accessory.

CARRIER WARNING LABEL

TOP BOX WARNING LABEL

Never ride a motorcycle equipped with accessories and a cargo at speeds above 130 km/h (80 mph).

Added accessories and cargo can reduce a motorcycle's stability, performance and safe riding speed. A motorcycle's stability is influenced by an improper loading, worn or under-inflated tyres, the overall motorcycle condition and environmental conditions.

When driving with the motorcycle, all locks of all bags must be securely locked.

Panniers or top box may fall off if not locked properly to the carrier or stay.
Check for secure locking before riding.

When the carrier base is used as a rear carrier without mounting the top box, load the cargo on the carrier base in such a manner that the ability of the carrier base to slide is not impaired.

Do not insert your fingers or your hand into the bracket installation part at the bottom of the top box. Your fingers may get caught between top box and bracket.

Heavy cargo placed on the opened lid can damage the pannier or top box and the lid.

Entry of water is possible when the vehicle is washed etc.

Please be careful when placing important objects into the box. Also be careful with breakable and valuable items. Do not leave valuable items in the bags.

Regarding the maximum loading capacity. Read the use and care information carefully in each of the accessory installation instructions or genuine accessory user's guide.
